

Top Ironman Times of 2013

Notes

Tables are compiled with results available in the Ironman.com athlete tracker for all full Ironman distance in 2013.

Where possible errors in name, category or splits have been corrected by hand. However errors may still be present.

Results are listed in order of speed without consideration for race course. Variations in race course and conditions mean caution should be applied when comparing splits from different events.

The results from Ironman Melbourne and Ironman Cozumel are excluded in these tables. Due in part to a shortened swim their finish times would dominate these results tables. A version including those race results is also available.
